Project Ideas

Here are some examples of great projects you can build for yourself. These pieces can be made for your own personal enjoyment or for retail operations. Bosworth Tools carries everything you need to complete projects like these. Tools, [plans](#) and even a how-to [DVD](#)!

The purpose of our eNewsletter is to offer inspiration and technical advice to hone your furniture-building skills. Additionally, as a preferred subscriber, we'd like you to take advantage of the [special offers](#) presented through this email only.

Build Your Toolbox

Furniture making as a trade or hobby is a skill that you refine over time. On the same token, acquiring the appropriate tools to accommodate your skill set is important. At Bosworth Tools, we have the experience and the understanding to help guide you through the process. Our "Build Your Toolbox" feature is filled with suggestions and tool recommendations to help you develop your furniture-building competence.

Sofa Table Project

A great project to begin expanding your knowledge as well as your Toolbox is our Sofa Table Project. Below, you'll find the essential tools to complete this project.

Tools and Supplies for Sofa Table Project

Drill - 1/2" or 3/4" heavy duty
2" Barker Tenon Cutter
2" Forstner Drill Bit
Drawknife
Saw, hammer, square, level, sander
Sandpaper and tack cloth

Look for **additional instructions** in the next newsletter. You might also be interested in the [Starter Kit Essentials](#). This kit contains all of the basic tools you need to start building log furniture. This includes your choice of tools for cutting the 1, 1-1/2 inch or the popular 2 inch tenon. Great standard size for beds, railing, sofas and other log furniture pieces.

Hints & Tips

An accurate tenon and mortise fit makes for a higher quality product, creating a stronger more durable piece of furniture or railing.

Forstner Bits

A Forstner bit is often used in furniture making and other woodworking projects. Forstner bits have a few unique features that make them desirable.

These bits are primarily guided by the outside rim and are used to drill pocket holes. Slightly sloped chipping bevels allow for very straight boring and square-bottomed holes allowing for a more precise fit of the tenon in the mortise.

Bosworth Tools offers competitive pricing on all bits, including Forstner.

An exclusive offer through this email only - Save 30% on 8 and 16 piece forstner bit kits!
